Support your local independent cafe with a difference...

Platters & Business Buffets

A little bit about us...

All our buffets are lovingly prepared on the day. We use our famously fresh bloomer bread which is baked & delivered every morning to give you the best possible sandwiches you will taste in Cheshire. If you disagree with this, we'll happily refund you.

Our ingredients are sourced from local butchers and farms wherever possible & our sandwich platters are garnished with sun dried tomato and olive canapés at no extra cost. We've created a flexible menu that allows you to pick and choose whatever you like to give you the buffet you want at the price you want.

We're so confident that once you've tried Heaths 26 for your office party / business lunch, you'll never go back. Why not bring a little bit of love to your office or party and support your local independent café with a difference.
